ELECTRICAL ENGINEERING DEPT.

VISION

To provide quality and value based technical education to students through innovative learning methodologies, empowering them to become competent diploma engineers in the field of electrical engineering.

MISSION

M1: To provide quality technical education to the students imbuing in them a thirst for continuous learning.

M2: To provide quality technical education to the students imbuing in them a thirst for continuous learning.

The Electrical Engineering department was established in year 2018. Electrical engineering is an engineering discipline concerned with the study, design and application of equipment, devices and systems which use electricity, electronics, and electromagnetism. It is divided into many subfields that include power engineering, control systems, electronics, computers, telecommunications, radio-frequency engineering, signal processing, instrumentation, mechatronics & microelectronics. The department aims to impart knowledge and skills to the students on theory and applications of this largest and most diverse technological field in the world. The department has well qualified and experienced faculty. Continuous up-gradation of faculty and facilities enable students to learn and grow in a challenging and supportive environment.
