

Faculty Development Session on “Innovation in Education – Teaching Students to think Beyond the Boundaries”

A Faculty Development Session on the topic "**Innovation in Education – Teaching Students to Think Beyond the Boundaries**" was organized on **25th July 2026** under the **MSBTE–BHAU (COEP) Program**. The resource person for the session was **Mr. Sagar Ranshoor**, a renowned Public Speaker and Startup Mentor.

During the first session, Mr. Ranshoor introduced the concept of innovation in education and emphasized the importance of fostering creative thinking among students. He highlighted how educators can encourage students to think beyond conventional approaches and develop an innovative mindset.

The second session focused on motivating students to generate original ideas. Mr. Ranshoor discussed various strategies to inspire creativity and explained the process of nurturing innovative ideas so that they can eventually be transformed into viable business ventures or startups. He also emphasized the crucial role of teachers in mentoring students throughout their innovation journey, from idea generation to implementation.

The session was highly informative and interactive, providing valuable insights into innovation-driven education and entrepreneurship. It encouraged faculty members to adopt teaching practices that promote creativity, critical thinking, and problem-solving among students. The session was attended by all faculty members of **Bharati Vidyapeeth Institute of Technology (BVIT), Navi Mumbai**.
